WASHINGTON 25, D. C.

AFCIN-1C1

22 September 1958

MEMORANDUM FOR DIRECTOR, CENTRAL INTELLIGENCE AGENCY ATTN: [REDACTED] 25X1A9a

SUBJECT: Augmentation of TALENT Spaces for ATIC

1. The Air Technical Intelligence Center has been authorized an increase in manning for purposes of augmentation in the special intelligence exploitation areas, and has also constructed a new secure area to facilitate exploitation. The Assistant Chief of Staff, Intelligence, USAF has approved a series of requests for augmentation of clearances to match this increased capability.

2. In a comprehensive study of clearance requirements, the Commander, ATIC has established justification for 54 additional TALENT slots. Parallel COMINT and SENSINT clearances have been authorized. The requirement for additional clearances is presumed to represent a reasonable "end position" clearance requirement for ATIC in terms of their current manning and mission. Future requirements from this command are expected of an occasional and single nature.

3. Approval of 54 additional slots is requested to establish the TALENT T/D for ATIC at 182 spaces.

FOR THE CHIEF OF STAFF:

POSITION APPROVAL:

*Charles D. Fisher*  
CHARLES D. FISHER  
Lt Colonel, USAF  
TALENT Security Officer

CIA TALENT Control Officer
